

Mark Anthony I. Quizon
B.S. Industrial Engineering
Graduated year 2006

I'm Mark Anthony Quizon, I graduated B.S. Industrial Engineering at Mapua Institute of Technology in May 2006.

I am currently working as an SAP Business Intelligence Consultant at an IT consulting company in Makati. I have been with this company for the past 2 years and now an officer in the company. In my career as an SAP consultant, I have already implemented 4 business Intelligence projects with well-known companies in the Philippines. In these projects, I was part of a team that develops a broad category of applications and technologies for gathering, storing, analyzing, and providing access to data to help enterprise users make better business decisions.

I have been a NAMABC scholar from 2005 to 2006 for a total of 5 terms. I remember when I was chosen to be the first recipient of the NAMABC scholarship; copies of the announcement were posted in every corner of the building. The first thing that it did to me was give me fame and then pressure followed. I took it as a responsibility and everyday I gave my all to prove to myself and to everyone that I deserved it. I studied harder, focused more, and in every class wanted and persevered to be the best.

I applied for the scholarship because my family was undergoing financial instability and I seriously considered transferring to a less expensive school at that time. The NAMABC scholarship helped me to continue in pursuing my studies in the best engineering school in the country, our beloved Mapua Institute of Technology.

The NAMABC scholarship grant has contributed to the person that I am now, confident, responsible, and believes that success will come as long as we give our best in the things that we do. The people of NAMABC shared their blessings to me, and I am proud to say that I am now sharing my blessings to others.

To NAMABC, thank you for the help, the support, and the commitment to helping students like me who needed that helping hand to finish our journeys to becoming Engineers. May God continue to bless you, your families, and your association.

"We make a living by what we get, but we make a life by what we give."
